

Accurate Edges - Master Account Import: Strong Start

Working import sheet assembled from Chris's account list. Prices are base knife prices unless a special flat/minimum rule is noted. AR/COD is preserved as provided. Addresses/phones marked pending should be verified before database import rather than guessed.

BAWK	Exact address/phone verify	\$6.00	AR		
Good Neighbor	Exact address/phone verify	\$6.00	AR		

Import Notes for Claude

- This is a starting dataset, not permission to overwrite existing Accurate Edges records. Deduplicate by existing customer/location, Google Place ID when available, and normalized address.
- Use the existing global service catalog. Base knife price drives multiplier-based equipment prices; fixed-price catalog services remain fixed.
- Minimum invoice rules: Beach Hut Deli \$60; Golden Pond \$99; Xulo Coffee \$60. Apply the minimum to the final service subtotal, not by altering individual service unit prices.
- Tres Hermanas is a special flat \$55 account as described by Chris; do not convert it to a normal base-price account without confirmation.
- Nugget physical locations use Kitchen, Bakery, Coffee departments. Corti Brothers uses Deli and Kitchen. Department invoices must not double-count sales/commission.
- AR and COD are payment terms. Cannery is COD and normally paid by credit card; keep payment method separate from payment terms.
- Rows marked PENDING/verify must not be populated with invented data. Preserve them as unresolved or verify before import.
- Nugget Production - Woodland is intentionally pending until Chris supplies the information.
